Isaiah Cubit

Isaiah has grown tremendously since he began working for Recreational Services as an Assistant Building Supervisor and a Weight Room Supervisor. He has become a leader without even realizing it. He not only leads by example, but also has shown recently hired staff the ropes and trained them on the fine details of the job. The tasks and responsibilities that Isaiah is trusted with are that of someone who has gained the respect of not only his peers but his supervisors as well.

When asked about why he likes working at the Rec, Isaiah had this to say, "I love working with everyone, they are always positive and keep things fun."

Isaiah is a Junior in Electrical Engineering and plans on finding a job outside of Kansas after graduation.

Congratulations Isaiah
