Employee of the Month

Jacoby Kerr

Jacoby was nominated for his working during the month of November as a Maintenance Assistant. His enthusiasm for the hands-on opportunities for someone in this position has been very beneficial. Jacoby has remained flexible in his work schedule as needed to complete certain tasks. Along with his co-workers, Jacoby has helped install more than 60 Synexsis Sphere units around the Rec Complex.

Jacoby is a Freshman in Agronomy. Following graduation he would like to work in the field as an agronomist.

Congratulations Jacoby!
